

'Evolve' recycled PET hot cup lids

Manufactured from up to **85% recycled PET** plastic and widely recyclable via kerbside recycling schemes, the innovative 'Evolve' hot cup lid boasts a secure *lift and lock* lid design that reduces the risk of spillage. Whether it's the morning rush or an afternoon pick-me-up, this recycled PET hot cup lid delivers practicality, functionality, and the opportunity to support a more sustainable future.

'Evolve' food packaging solutions are made from post-consumer recycled content and can be fully recycled into new food packaging after use. The unique green colour of 'Evolve' recycled PET lids reflects the recycled content of the lids and clearly signals to consumers that they are making a sustainable choice.

Recycled PET hot cup lids:

- Contains up to 85% post-consumer recycled content (minimum post-consumer recycled content is 35%)
- Widely recycled in kerbside recycling schemes
- *Lift and lock* lid design
- Fits 90mm rim diameter hot cups (typically 12oz and 16oz cups)
- 'Evolve' natural green colour
